

DOORLOCK & BYPASS COMBO MODULES

OMEGA VEHICLE INTERFACE KITS

Interface	Description
DB-CHDL6P2	CHRYSLER DOORLOCK ALARM & INTERFACE & TRANSPONDER BYPASS
DB-GMDLBP	GM PASSLOCK 2&3 D/L ALARM
DB-JDLP	JEEP D/L ALARM W/ TRANS BYPASS
CH-ALL	UPDATEABLE CHRYSLER D/L & BYPASS INTERFACE (requires IM-LOADER2)

Our line of vehicle interface modules doesn't stop with remote start immobilizer bypass kits. We also offer a host of patented databus doorlock interfaces that are fully integrated with the immobilizer bypass for many applications. These kits offer you doorlock control, OEM alarm arm & disarm, trunk release, sliding door control, motorized hatch control, heated seats, immobilizer bypass, and more. **Save countless hours of install time** and provide your customers with a safe and reliable solution. These kits work with factory systems instead of compromising them. Stop risking expensive control modules and unnecessary labor.

DOORLOCK INTEGRATION MODULES

Interface	Description
DB-HODL	HONDA 98-02 D/L ALM INTERFACE
DB-HODL-2	HONDA 03-04 D/L ALM INTERFACE
DB-JDL3	JEEP DOORLOCK ALARM INTERFACE: GRAND CHEROKEE '99-'04
DB-TOYDL	TOYOTA D/L ALM INTERFACE

Since our original DB-DLM databus doorlock interface, Omega has been working to bring you the latest innovations in databus integration. Our doorlock and convenience modules offer the functions you need with **minimal install time**.
