BATTERIES & ACCESSORIES

AU-BATPACK

BATPACK-R

BAT-CR-2032

BAT-CR-2016

BAT-A-AAA

BAT-23A

BAT-27A

AU-BATPACK

Clip on battery holder & harness to use the BAT-9 or BATPACK-R as a back up battery for any Omega alarm with a backup battery port.

BATPACK-R

Rechargeable backup battery pack for any Omega alarm with a backup battery port. Stop replacing batteries and stop installing clumsy, oversized battery packs. Provides up to 10 trigger cycles of power before needing to recharge. It's the same size as a 9-volt and easily fits into the AU-BATPACK clip.

BAT-AAA

1.5 volt Alkaline replacement battery for Omega 2-way controllers. (sold in bags of 5)

BAT-CR-2016

Thin profile, 3 volt, lithium transmitter battery. Replace the single BAT-CR-2032 battery with two of these to raise the voltage to 6 volts in Omega transmitters to increase the operating range. 2 required per transmitter. (sold in bags of 5)

BAT-CR-2032

Standard profile, 3 volt, lithium transmitter replacement battery for Omega transmitters. 1 required per transmitter. (sold in bags of 5)

BAT-23A

12 volt replacement battery for Omega transmitters. (sold in bags of 5)

BAT-27A

12 volt replacement battery for Omega transmitters. (sold in bags of 5)
