

AH-300

AH-300BLK

The **AH-300** is our original 3 tone train horn assembly. It has 10.5", 14.5", and 15" trumpets that features chrome plated brass construction. It is fitted with a 12 VDC switching solenoid valve. Air line capable of handling up to 150 PSI is also included with all necessary mounting hardware. The **AH-300BLK** is the same design but constructed out of steel with a corrosion resistant black coating.

AH-D300+

The **AH-D300+** is the same as the **AH-300** but has a detachable style construction. With the addition of our braided air lines (see below), you can disassemble each trumpet and mount them remotely from the manifold. This allows for installation in the most challenging of vehicles.

AH-250

The **AH-250** is the ideal kit for anything from a compact car to a monster truck! It includes our dual horn assembly with 12" and 10" horns and our "can" style compressor. It comes with all necessary hardware and air line for a complete installation.

AC-1.5

The **AC-1.5** is our high output air compressor for use with any of our air horn assemblies.

- Operates on 12 VDC
- 110 PSI Output
- 2.03 CFM @ 0 PSI
- 1.5 Gallon Tank
- Stainless Steel Braided Hose

Stainless Steel Braided Air Hose For Detachable Horns

- Use these hoses for remote mounting of the **AH-D300+** detachable train horns. These hoses are available in 2 lengths and have all necessary fittings pre-assembled for quick installation.

- AH-HOSE 16 - 16" length
- AH-HOSE 24 - 24" length

AC-112-PS
Replacement pressure switch.

AH-1/4 FIT
1/4" Male pipe thread to 3/8" tube fitting.

AH-1/4 L FIT
1/4" Male pipe thread to 1/2" tube fitting.

AH-1/4 RED
1/4" Male pipe thread to 3/8" Female pipe thread adaptor.

AH-3/8 FIT
3/8" Male pipe thread to 1/2" tubing.

AH-SOL-300
AH-300 3/8" Right angle replacement solenoid.

AH-SCREW
Chrome replacement screw for diaphragms.

AH-SOL-1/2
AH-300 1/2" Replacement valve. Includes adaptor to fit

AH-SOL-3/8
AH-300 3/8" Straight replacement valve.

AH-VALVE
5mm Heavy duty 1/2" replacement valve.

AH-3 DIA KIT
AH-300/D300+/300BLK Diaphragm repair kit. 3 1/2" diameter.

AH-2 DIA KIT
AH-250 Diaphragm repair kit. 3" diameter.
