

The **TURBO TIMER2** is a requirement for any turbo equipped vehicle. It will dramatically increase the life span of your turbo by allowing engine oil to properly cool the turbo down after driving. It includes a shut off button and has two ignition outputs.

- 1/2, 1, 2, 3, 4, 5, 6, & 7 minute run times
- Push button shut off switch
- 2 ignition outputs w/ easy connect 3-pin harness
