2021 FULL LINE CATALOG

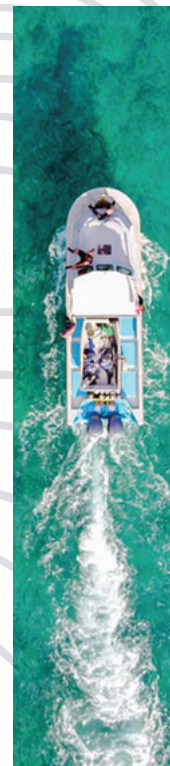

THE BEST NOISE MAKERS

Omega Research & Development, Inc., has been an innovative leader in the vehicle security industry for over 40 years. Since its founding in 1971, Omega's product line has diversified to include automotive and marine speakers, speaker wire, remote start modules and other vehicle accessory products. In 2004, we developed one of the most impressive air horn product lines on the market. We recently broke it out and re-branded it under the Aggressor name to reflect the performance and nature of our adventure loving customers.

Aggressor has grown into a full product offering with some of the highest quality components available all designed at our headquarters in Atlanta, Ga. Our product line has recently expanded into ultra heavy duty vehicle specific brackets for quicker installs than ever.

We also offer a full line of repair parts and upgrades to keep your system in top shape no matter where you take it.

AH-D300+

— CHROME-PLATED BRASS, DETACHABLE TRAIN HORN ASSEMBLY —

A **3**-tone detachable train horn assembly of sizes **10.5"**, **14.5"**, and **15"** trumpets that feature a chrome-plated brass construction. The AH-D300+ is fitted with a **12** VDC switching solenoid **1/2"** valve. This way, declare your truck's arrival with the push of a button.

The addition of braided airlines lets you disassemble each trumpet and mount them remotely from the manifold. This allows for quick and simple installation that's actually very challenging. The airline is capable of handling up to **200** PSI. This horn assembly also comes with necessary mounting hardware.

TRIPLE HORN/TRI-TONE DESIGN

15", 14.5", & 10.5" TRUMPETS

CHROME PLATED BRASS FOR SUPERIOR CORROSION RESISTANCE

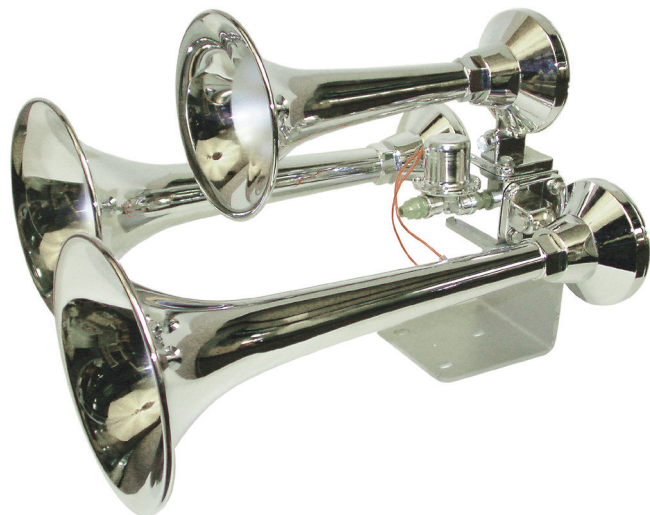

ALL 3 TRUMPETS SEPARATELY DETACHABLE

INCLUDES FITTINGS TO REMOTE MOUNT 2 TRUMPETS

COMPATIBLE WITH ALL AGGRESSOR COMPRESSOR MODELS

1/2" INLET & SOLENOID FOR INCREASED DB LEVELS

HANDLES UP TO 200 PSI INLET PRESSURE

AH-HOSE 12

STAINLESS STEEL BRAIDED 12" AIR HOSE FOR DETACHABLE HORNS FOR AH-D300+
This mighty 12" hose is used with the AH-D300+. It's a stainless steel braided air hose that's apt for remote mounting of the detachable train horns.

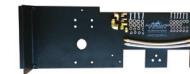

The best part is that this hose makes for a quick and versatile install.

AH-HOSE 16

STAINLESS STEEL BRAIDED 16" AIR HOSE FOR DETACHABLE FOR AH-D300+
Whether it's about strength or durability, this 16" hose is used with the AH-D300+. It's a stainless steel braided air hose that's apt for remote mounting of the detachable train horns.

The best part is that this hose makes for a quick and versatile install.

Three heavy duty brackets available on page 12. They are easy to install and make your own custom setup.

AH-300

— ORIGINAL CHROME PLATED BRASS TRAIN HORN ASSEMBLY —

This original **3**-tone train horn assembly has three trumpets of sizes **10.5"**, **14.5"**, and **15"**. And all of them feature chrome-plated brass construction for a long lasting sleek look.

The assembly is fitted with a **12** VDC switching solenoid **1/2"** valve. Blowing the horn is as simple as pushing a button.

For making the installation quick, the system comes with all the necessary mounting hardware, and system handles up to **200** PSI for maximum output.

— BLACK PAINTED STEEL TRAIN HORN ASSEMBLY —

AH-300BLK

This **3**-tone train horn assembly has steel trumpets of sizes **10.5"**, **14.5"**, and **15"**. Every airhorn sports a corrosion-resistant black coating. The train horn for trucks has a **12** VDC switching solenoid **1/2"** valve, so whenever you depress that horn button, your truck will be heard far and wide.

Plus, the system handles up to **200** PSI and is included with all necessary mounting hardware. This way, the horn is super functional and even its installation becomes simple and quick.

AH-250

— SMALL, CHROME PLATED BRASS TRAIN HORN ASSEMBLY —

Code-name **AH-250**, the small horn and compressor kit is best for everything ranging from a compact car to a monster truck.

This one includes a dual assembly with horns of sizes **12"** and **10"**. Along with that, the assembly has a can-styled medium-duty compressor that's compact and easy to install.

The assembly even comes with all necessary hardware components and airline for complete and quick installation.

AC-2.0MP

— 2.0 GALLON COMPRESSOR —

This AC-2.0MP is an ultra-high output air compressor that can be used with any of our **AH-300** series train horn assemblies.

The 2 gallon tank allows for longer & more often use. Also ideal for air bags or for airing tires up/down.

2.0 GALLON AIR TANK

MULTIPLE TANK PORTS TO ACCOMODATE
ANY INSTALLATION

CORROSION RESISTANT PAINTED STEEL
TANK CONSTRUCTION

OPERATES ON 12VDC

145 PSI OUTPUT

1.59 CFM @ 0 PSI (13.8 VOLTS)

1/2" OUTLET FOR INCREASED AIR FLOW

STAINLESS STEEL BRAIDED HOSE

DRAIN COCK & PRESSURE RELIEF VALVE

— 1.5 GALLON COMPRESSOR - 110 PSI —

AC-1.5MP

The AC-1.5MP is a high-output air compressor. It's engineered to be used with any of air horn assemblies out there.

The compressor is designed for high-pressure air horns that always need an onboard air system. The tank is built to last and works in all conditions. This compressor's motor is as tough as it gets and can be easily separated from the tank for more mounting options.

STAINLESS STEEL BRAIDED HOSE

DRAIN COCK & PRESSURE RELIEF VALVE

BRACKET- FORDSD-KIT

COMPRESSOR AND TRAIN HORN BOLT
ON BRACKET FOR 1999-2017 SUPER
DUTY PICKUP TRUCKS

Here's a robust train horn and compressor
mounting bracket for Ford's super-duty
trucks. This bolt-on bracket can be used
with pickups that are manufactured from
1999 to 2017.

This mounting bracket is compatible
with AC-1.5MP or AC-2.0MP that's got an
AH-D300+ train horn. The best part is that
all the mounting hardware components
are included. This bracket bolts up to the
existing receiver hitch mounting points.

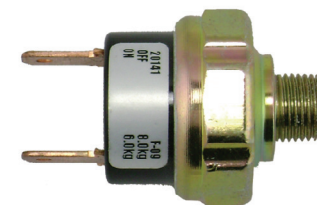

BRACKET- COMP2-KIT

LOW PROFILE COMPRESSOR MOUNTING
BRACKET (FOR AC-1.5MP)

This kit is a low-profile compressor
mounting bracket (FOR AC-1.5MP).

This one is engineered to fit perfectly
well inside your truck. And the best part
is that this well-built bracket kit looks
and feels totally professional once it's
installed.
