REMOTE START & SECURITY PERFECTED

SUMMER 2022 REMOTE START & SECURITY LINEUP   70 SERIES

START

www.CarAlarm.com

TIMES 2!

1 BACKUP BATTERY PORT
Featuring our exclusive Power Maze technology, battery power only supports mission-critical security functions. You won't waste the battery on power-hogging features like remote start. Believe it or not, with Power Maze, a simple 9V battery is all you need to combat any security threat.

2 BACKUP BATTERY BRACKET
AL-XX70-B has this nifty slide on bracket for the backup battery. The slide on battery housing and harness are included with every security model powered by the AL-XX70-B.

3 DOOR LOCK/UNLOCK PORT
Analog outputs for door lock, driver unlock, & all door unlock. Has a +12v pin for driving relays or other analog adapters like the DLR-U

4 REMOTE START SATELLITE PORT(S)
4 analog outputs for several options to add extra or custom functions. AL-XX70-B has 3 programmable outputs The RS-X70 has 2 programmable outputs. All have a +12v pin for driving relays or bypass modules.

5 WHITE 4-PIN AUX PORT
This port provides OEM alarm arm/disarm control along with remote start activation input & 3RD channel out. These functions are separated from the main harness since they are supported over data in most vehicles. Yep, cleaner install.

6 DUAL DATA PORTS
Both ports are physically matched to legacy (DBI) and modern (iDatalink) connectors. However, both support DBI or iDatalink protocols. Protocols are auto-detected during *Vehicle Learn* process or manually selectable.

7 BLADE HARNESS PORT
This is where you connect the harness included with any OmegaLink BLADE cartridge. It's also compatible with our line of T-harnesses (see p. 10)

8 70 SERIES ANTENNA/STATUS LIGHT PORT
This port supports any 70 series antenna module. Select any combination of 1-way/2-way and range you'd like. It also supports our push-button LED (included with the RS-170-B)

9 BLADE CARTRIDGE PORT
This is where the OL-BLADE-AL64 or OL-BLADE-TB is inserted to the AL-XX70-B. PCB shielding and precision locking guides makes it simple and secure.
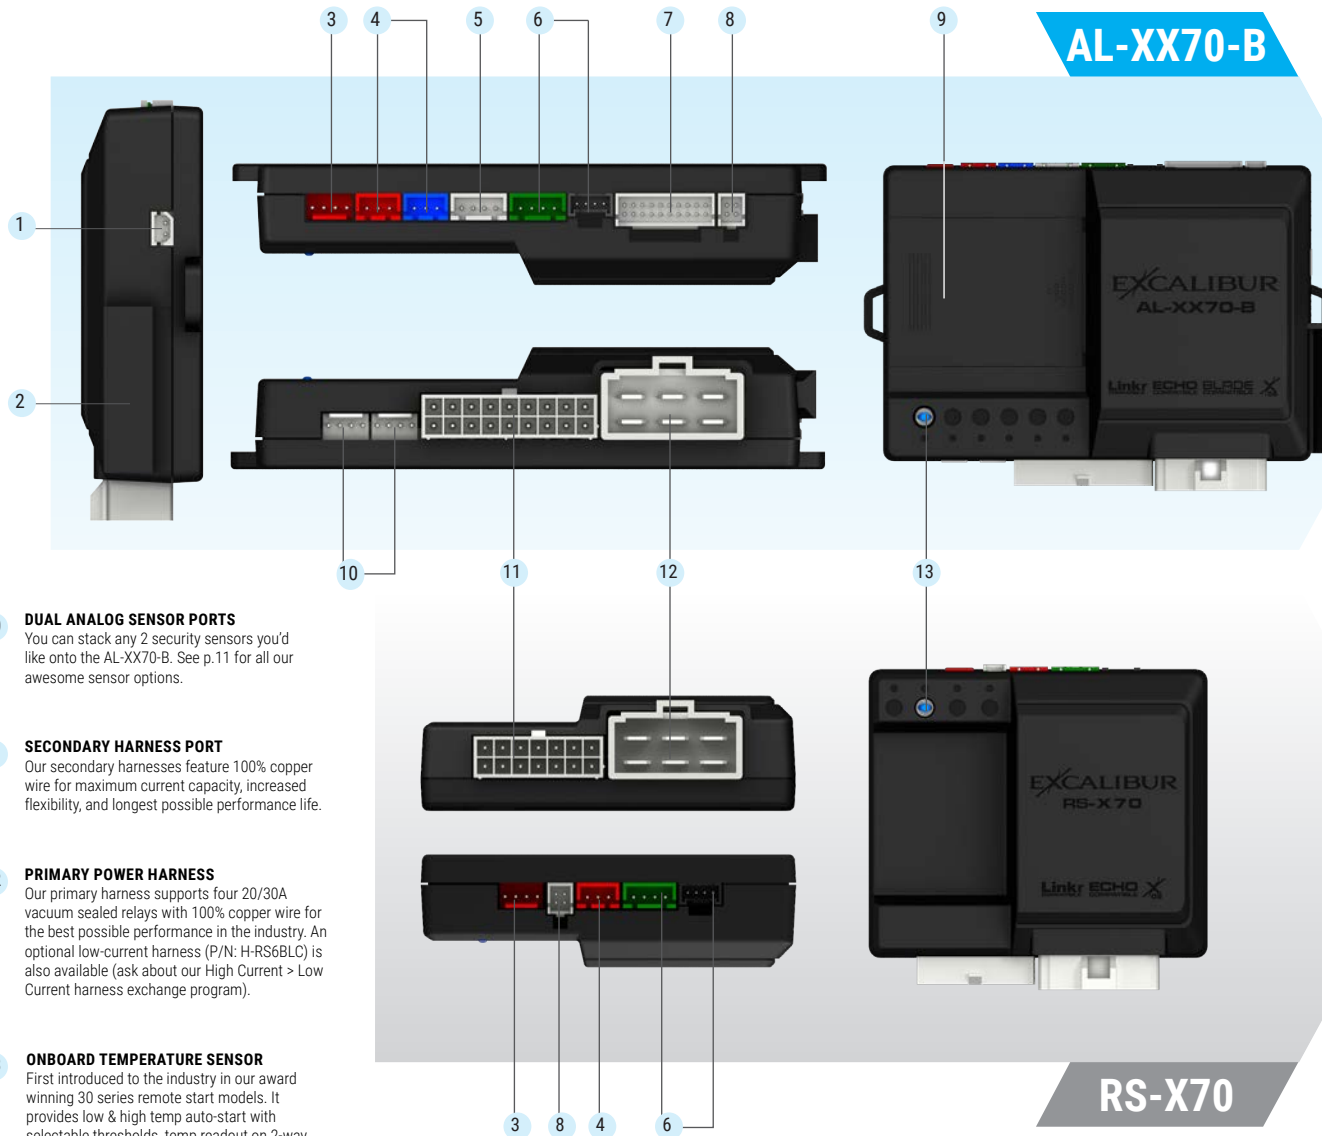

10 DUAL ANALOG SENSOR PORTS
You can stack any 2 security sensors you'd like onto the AL-XX70-B. See p.11 for all our awesome sensor options.

11 SECONDARY HARNESS PORT
Our secondary harnesses feature 100% copper wire for maximum current capacity, increased flexibility, and longest possible performance life.

12 PRIMARY POWER HARNESS
Our primary harness supports four 20/30A vacuum sealed relays with 100% copper wire for the best possible performance in the industry. An optional low-current harness (P/N: H-RS6BLC) is also available (ask about our High Current > Low Current harness exchange program).

13 ONBOARD TEMPERATURE SENSOR
First introduced to the industry in our award winning 30 series remote start models. It provides low & high temp auto-start with selectable thresholds, temp readout on 2-way controllers, and auto-crank adjust for cold weather.

RS-170-B64

Powered by the godfather of all remote start modules, the AL-XX70-B, the RS-170-B64 is the foundation for building the system of your dreams. It's compatible with RK series remote kits, Linkr smartphone control, sirens, sensors, & OmegaLink t-harnesses, From add-on start (LOCK, LOCK, LOCK from OEM remote), to aftermarket keyless start, to a full-blown LEGENDARY security/convenience package, the RS-170-B64 is a one-stop platform. Stop choosing between what is or isn't compatible.

- Includes the OL-BLADE-AL-64 for all-in-one installer paradise!
- Supports 3x LOCK remote start (via data or analog)
- Powered by the AL-XX70-B
- Compatible with all OL-HRN-RS T-harnesses
- Includes high current harness & all supporting harnesses for hard-wire installs

- Includes new push-button LED/Valet
- Supports all 70 series remote kits (page 9)
- Supports all 70 series remotes simultaneously: 1-button, 1+1 button, 4-button, 2-way, etc

PUSH BUTTON STATUS LIGHT INCLUDED

This plug-in status light/programming button combo features a super bright LED and the integrated construction provides easy installation for you and easy use for your customers.

3X LOCK START

Control the RS-170-B64 from OEM remotes. Supports 3x lock remote start, arm, & disarm

RFK REMOTE KIT

Direct plug-in to ANY 70 series Excalibur remote start, OmegaLink Data Start, iDatalink Data Start, or Fortin EVO Data Start. Backed by our legendary Limited Lifetime Warranty. All RFK Kits have a 3,000ft max range. Each kit includes a 2-way ready antenna module, with built-in status light & valet button, harness, batteries, and a Limited Lifetime Warranty on all components!

3000FT REMOTE KITS FOR RS-170-B & RS-170-B64

EXCALIBUR 70 SERIES

- 3000 ft remote kits for RS-170-B & RS-170-B64 platforms
- Upgrade any 70 series system to 2-way or extended range
- All kits include a 2-way ready antenna. Just add a 2-way remote!

OMEGALINK, IDATALINK, AND FORTIN DATA START

- Adds Low/High Temp autostart to data start systems with onboard temperature sensor. (3 low & 4 high selectable thresholds)
- High visibility LED's in window-mount antenna
- 1-Button Unlock Only Mode
- 8 programmable features

ONE SOLUTION FOR ALL OMEGA REMOTE STARTS!

RFK-42-SST
3000ft 5-Button LED 2-Way Remote Kit
- Includes One 2-way remote
- Includes One 1-way remote
- Indicates engine run time (2-way only)
- Multi-car support (2-way only)
- Low vehicle battery alert (2-way only)
- OEM alarm alerts (2-way only)
- Durable chrome metal frames
- Leather texture back case

RFK-32-SST
3000ft 4-Button LED 1-Way Remote Kit
- Includes Two 1-way remotes
- Durable chrome metal frames
- Leather texture back case
- 2-way ready - just add remote!

RFK-22-SST
3000ft 1-Button LED 2-Way Remote Kit
- Includes One 2-way remote
- Includes One 1-way remote
- Indicates engine run time (2-way only)
- Low vehicle battery alert (2-way only)
- OEM alarm alerts (2-way only)
- Supports Lock, Unlock, Start/Stop
- Programmable for Unlock only
- Durable chrome metal frames

RFK-15-SST
3000ft 2-Button LED 2-Way Remote Kit
- Includes Two 2-way remotes
- Durable chrome metal frames
- Supports Lock, Unlock, Start/Stop
- Programmable for Unlock only
- 2-way ready - just add remote!

RFK-12-SST
3000ft 1-Button LED 1-Way Remote Kit
- Includes Two 1-way remotes
- Durable chrome metal frames
- Supports Lock, Unlock, Start/Stop
- Programmable for Unlock only
- 2-way ready - just add remote!

These T-Harnesses are compatible with any Excalibur remote start. These are built to OEM or better quality standards and are made with 100% copper wire for maximum current delivery and reliability. These plug-in harnesses provide remote start critical connections and help you avoid straining sensitive data wires or compromising high current circuit integrity. You can even adapt these to ANY remote start brand using FlashLogic, iDatalink BLADE or ALCA modules.

- Get OmegaLink install convenience AND Excalibur features!
- Use what's already on your shelf!
- Connect directly to the BLADE port on the AL-XX70-B
- Includes an adapter for using the OL-MDB-ALL with ANY system

ADAPTER HARNESS
Adapt to Prestige & Code-Alarm brand remote start.

USE ANY BRAND
REMOTE START!

OL-HRN-RS-PWR
UNIVERSAL ADAPTER HARNESS
Use this to adapt any of the above harnesses to ANY brand remote start system using a BLADE, ALCA, or FLCAN interface module.

SECURITY UPGRADES

All Excalibur security systems are compatible with these state-of-the-art upgrades. From wheel/tire protection to glass breakage detection to proximity/motion sensing for convertibles & soft tops, you have EVERY application covered. You can also layer audible alerts by adding a siren to any system with horn honk for a REAL attention-getting alarm system.

AU-SEC

Dual Zone Shock & 6-Tone Siren Pack
- AU-84TDPB Magnetic resonance data shock for unbeatable impact detection.
- AU-73M Miniature high output 6-tone siren
- Upgrade ANY Excalibur 70 Series remote start with this simple kit.
- Upgrade the OL-RS-BA integrated remote start/bypass system with ease

ADD TO *ANY 70 SERIES RS MODEL!*

AU-84TDPB

Dual Zone Data Shock Sensor
- Upgrade any 70 series model with black data port (RS-X70 & AL-XX70-B)
- Uses iDatalink protocol
- Pre-warn & trigger zones
- Separate adjustment for each zone
- Analog door trigger input (when not supported through data module)
- Pass through data port for other plug-in accessories
- Compatible with CrimeStopper G6 Series

AU-85Tn

Dual Zone Shock & Glass Break Sensor
- Magnetic resonance element for superior impact detection.
- Pre-warn & trigger zones
- Separate adjustment for each zone
- Add to any Omega alarm with analog sensor ports.
- Glass breakage detection microphone included for pinpoint accuracy

AU-84Tn

Dual Zone Shock Sensor
- Magnetic resonance element for superior impact detection.
- Pre-warn & trigger zones
- Separate adjustment for each zone
- Add to any Omega alarm with analog sensor ports.

AU-94TM

Dual Zone Proximity/Motion Sensor
- Pre-warn & trigger zones
- Separate adjustment for each zone
- Add to any Omega alarm with analog sensor ports.
- Ideal for soft tops
- Long harness included for optimal placement

AU-46TD

Dual Zone Digital Tilt Sensor
- Hi resolution 3D accelerometer
- Pre-warn & trigger zones
- Separate adjustment for each zone
- Add to any Omega alarm with analog sensor ports.
- Great wheel/tire protection

AU-73M

Miniature High Output 6-Tone Siren
- Compact design for quick/easy install
- Operates on 12v
- Compatible with all alarm models

- Carbon fiber elements for superior performance
- Pads can be trimmed for custom fit beneath seat fabric
- Works with cloth or leather seats
- 3 mode settings - High, Low, Off
- Illuminated dual color LED switch
  - requires 13/16" (21mm) hole for mounting
- Comes with back and bottom elements for 1 seat
- Includes all wiring and activation switch
- Simple power & ground wiring

WHAT IT IS?

This **INDUSTRY FIRST** system of pure, unstoppable, vehicle protection exellence is the latest in Excalibur innovation! It's the newest generation in our legendary AL-15X0 series of 2-way alarm systems and, oh man, did it get an upgrade!

Ever install a slam dunk data start like an 'OL-RS' t-harness kit or OL-MDB-ALL with RS Firwmware just to have the customer return a few weeks later wanting to add security? Yeah, the deinstall, reinstall sucks for you and your customer. Well, dread it no longer! The AL-1575 connects to the data start just like a "RF kit" except it has an entire alarm system built in. Better yet, if the data start provides all the trigger zones, etc, it's as easy as 3 wires (power, ground, ignition) and you're done! Then, just add any accessories like siren, starter kill, and flashing lights where desired.

Don't forget, it's still a badass stand alone 2-way alarm system with premium features and a LIFETIME warranty you only get from Omega.

WHY YOU WANT IT **(HARDWARE)**:

• Upgrade most data start systems to 2-way security
• 5-button LED 2-way & 4-button 1-way controllers
• Onboard temp sensor
• 2 Onboard relays for maximum flexibility
• Dual data ports
• Up to 4 AUX outputs
• Starter interrupt relay included
• AU-85Tn dual zone impact and glass break sensor
• AU-73M Mini 6-tone 20-watt siren
• Dedicated horn honk output
• Dedicated (+), (-), & Relay Light Flash Outputs!
• Backup battery port & bracket included
• Limited **LIFETIME WARRANTY*** on all components

OL-MDB-ALL w/ "RS" FIRMWARE

OMEGALINK "OL-RS" DATA START

FORTIN EVO DATA START

AL-1575
2-WAY SECURITY & DATA START UPGRADE

3000 FT RANGE

WHY YOU WANT IT **(OPERATIONS)**:

• Multi-vehicle capability
• Low/high temp auto start (optional data start required)
• Low voltage auto start (optional data start required)
• Low vehicle battery alert
• Supports iDataLink & DBI protocols
• Human panic horn honk alert
• Indicates vehicle interior temp on remote
• Remote start timer (optional data start required)
• Run time expiration warning (optional data start required)
• Simultaneous horn honk & siren alert

*visit caralarm.com for full warranty terms   ***Transportation Surcharge**

SECURITY / KEYLESS ENTRY SYSTEMS

We also offer everything you need to give your customers security-focused solutions and non-remote start convenience packages that are ideal for fleet upgrade applications or vehicles not equipped with factory keyless entry/security.
