1st YEAR OF SERVICE INCLUDED!

NEW 4G LTE SPEED!

COVER 99% OF YOUR CUSTOMER'S NEEDS FOR HALF THE PRICE!

Model: LINKR-LT2

Key Features:

- Control & Confirm LOCK, UNLOCK, START, STOP, TRUNK, & Aux Functions
- View the vehicle's current location
- Displays remote start remaining run time
- NEW run time extender feature!
- Shows door locked/unlocked status
- Displays vehicle voltage & Linkr network connection
- Direct plug-in to Excalibur 70 series remote starts

powered by

GET THE LINKR-LT APP WITH YOUR SHOP LOGO!

- Direct plug-in to OmegaLink RS kits
- Alarm trigger alert
- Install as stand alone tracker (Only GPS instant locate & alarm alert is available)
- Supports iDatalink, Posse, Fortin, & DBI/Smartstart protocols
- Includes the 1st year of service (\$39 USD for the following year)
- Works in the USA, Puerto Rico, and roams in Canada

**4G LTE
HI SPEED**

NO SERVICE COST!

**1.5 MILE RANGE
SMARTCONTROL!**

CONNECTED® reimagining
digital RF systems

Model: RFK5000

Key Features:

- Connects via Bluetooth directly to the antenna and/or the long range remote
- True 2-way communication powered by LoRa™ technology
- Real-time Bluetooth® communication interaction with your smartphone with rapid response
- 2-way LED remote with over 1.5 miles of operating range
- Micro USB rechargeable Li-On battery (cable not included)
- Compatible with most digital remote start and security systems
- Compatible with android & iOS Smartphones - search "Connected SmartControl" in your app store.

COMPATIBLE SYSTEMS

OMEGA BRANDS

EXCALIBUR

- Excalibur 70 series (v1.4 FW or higher required)

OMEGALINK

- All "OL-RS" kits
- OL-MDB-ALL w/ RS Firmware

CRIMESTOPPER

- RS-00 (Linkr-LT2 Only)
- RSx-G5 (Linkr-LT2 Only)
- SP402 / SP502 (Linkr-LT2 Only)
- RSx-G6

ADS iDatalink

- ALCA w/ RS Firmware
- HCx
- VWx
- BMx
- BZx
- AKX

ASTROSTART

- AF-D600

AUTOSTART

- ASD200
- ASD600

DIRECTED ELECTRONICS

- DBALL 2
- DB3
- 4X10 / 5X10
- DS4+

OTHER BRANDS

FORTIN ELECTRONICS

- EVO-ALL (LINKR-LT2 Only)
- EVO-ONE (LINKR-LT2 Only)

FIRSTTECH

- Compustar 7000 series
- Compustar 6000 series
- Compustar FT-xxx-DC
- Compustar FT-DC2 / FT-DC3

MIDCITY

- Midcity Smartkey Starter (RFK5000 Only)
- All Modules With ADS Telematics Port (Linkr Only)

Any System That Supports The iDatalink Telematics Protocol

SECURITY SYSTEM SENSORS

AU-85Tn

Dual Zone Magnetic Shock & Glass Breakage Sensor

Two sensors in one. This sensor combines a broad spectrum impact and vibration sensor utilizing magnetic technology, in conjunction with an extra sensitive condenser microphone and sound discrimination circuit to detect glass tampering, making it a potent but amazingly economical sensor choice.

- Prewired plug-in remote mount condenser microphone
- Includes "No-Drilling" mounting bracket for microphone
- Pre-warn output to chirp siren and warn thieves away
- Prewired 4-pin plug-in harness included
- Each zone is independently adjustable
- Dual LED sensitivity test light
- Highly resistant to RF interference

AU-84TDPB

Dual Zone DATA Shock Sensor

The AU-84TDP is a miniature dual zone data shock sensor for use with Excalibur "RS" model 60-70 series remote start systems that don't have analog sensor ports.

- Uses the iDataLink protocol
- Positive & negative door trigger inputs that send door trigger status via data
- Has a pass-through data port for attaching OmegaLink modules
- Each zone is independently adjustable
- Dual LED sensitivity test light for pre-warn and trigger zones
- LED also indicates when door trigger inputs are active

AU-84Tn

Dual Zone Magnetic Shock Sensor

The AU-84Tn is a dual zone impact sensor that utilizes state-of-the-art magnetic field disturbance Impact technology to detect shocks and blows to the exterior of the vehicle.

- Pre-warn zone will chirp the siren to warn thieves away
- Prewired 4-pin plug-in harness included
- Compatible with all Omega systems
- Each zone is independently adjustable
- Dual LED sensitivity indicators

CS-SENSOR-LINK

Sensor Port Adaptor

Adapts Omega sensors to Crimstopper security systems
Note: this adaptor is not compatible with SP-102

AU-SEC

Dual Zone Shock & 6-Tone Siren Pack

Upgrade ANY Excalibur 70 series remote start or the OmegaLink OL-RS-BA to full security just by adding this kit.

- AU-84TDP Magnetic resonance data shock for unbeatable impact detection. Connects to data port & adds analog door trigger inputs to any RS model.
- AU-73M Miniature high output 6-tone 12volt siren
- Upgrade ANY Excalibur 70 Series remote start to full security.
- Upgrade the OL-RS-BA integrated remote start/bypass system with ease. NO CODE REQUIRED

AU-94TM

Miniature Dual Zone Proximity Sensor

The AU-94TM is designed to provide both an internal and external zones of protection for the vehicle. When the exterior zone is penetrated by someone, a pre-warn signal is generated and sent to the security system's pre-warn input. When the interior zone is violated, the system immediately triggers.

- Dual zone sensing protects both inside and outside of the vehicle.
- Each zone is independently adjustable
- LED sensitivity test light
- Prewired 4-pin plug-in harness included

SECURITY SYSTEM SENSORS (CONTINUED)

AU-84TM

Dual Zone Shock Sensor

The AU-84TM is a miniature dual zone impact sensor that utilizes a piezo crystal element to detect shocks to the exterior of your vehicle. It's equipped with a Pre-warn output to chirp siren and warn thieves away. It's Prewired 4-pin plug allows easy connection to all Omega systems

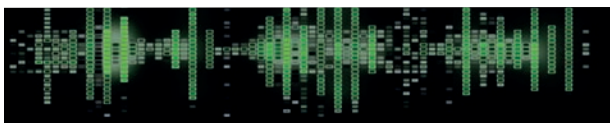

- Each zone is independently adjustable
- Dual LED sensitivity test light

AU-46TD

Dual Zone Digital Tilt Sensor

This dual zone sensor features 4 selectable tilt angles to trigger the sensor. It can also be configured for 3 second or 45 second arming delay. It has a 2 color LED to indicate the pre-warn and hard trigger zones.

SIRENS

AU-70CL4

High Power Multi-Tone Siren

Loaded with 4 high output transistors, this siren is seriously loud. It features 6 traditional Omega tones.

AU-70SL

Single or Multi-tone Siren

Selectable single tone or multitone modes.

AU-73M

Ultra Compact Multi-Tone Siren

This is our standard siren included in most Excalibur 60 series models. It's ideal in late model cars where engine compartment space is limited and can be installed without disassembly. It features 6 traditional Omega tones.

IMMOBILIZER INHIBITOR

AU-TI

Transponder Interrupt

For vehicles equipped with a factory transponder type immobilizer system, the AU-TI provides an alternative to starter interrupt. It enables the OE immobilizer whenever the alarm is armed thus allowing you to take advantage of starter interrupt, fuel system disable, even ignition disable (depends on configuration of OEM equipment) without cutting any wires.

DOORLOCK & CONVENIENCE ACCESSORIES

DLP-N3

Negative Doorlock Output Interface

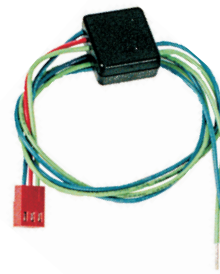

Prewired 3-pin doorlock interface harness. Allows direct connection of Omega security and keyless entry system doorlock outputs to negative pulse doorlock systems.

DLP-N4

Negative Doorlock Output Interface

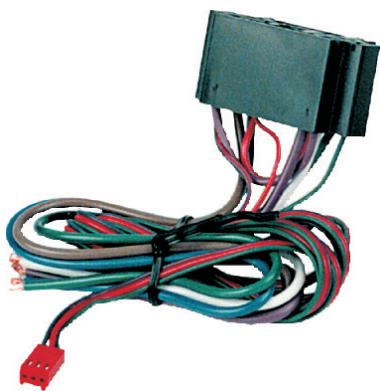

Prewired 4-pin door lock and unlock interface plug with driver's door priority unlock output. Allows direct connection of Omega security and keyless entry system doorlock outputs to negative pulse doorlock systems.

DLP-P3

Positive Doorlock Output Interface

Prewired 3-pin doorlock plug converts negative doorlock outputs on Omega security and keyless entry system doorlock outputs to positive doorlock outputs. Provides output for locking all doors and unlocking all doors. For positive pulse doorlocking systems only.

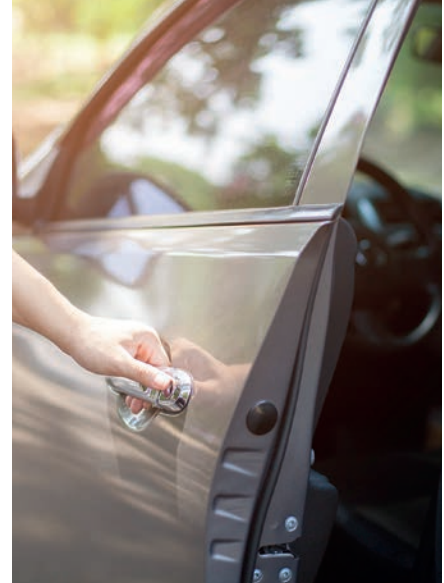

DLS

Doorlock Relay Socket

Prewired dual relay socket allows easy installation of optional relays to both the Omega security or keyless entry system, and the vehicle. Can be configured to operate 3-wire negative, 3-wire positive, and 5-wire reversal power doorlocking systems for lock and unlock by the Omega system. Two SPDT relays are required (not included - See The AU-7 on p10).

- Heavy duty 14 gauge connection wire.
- Connects to Security or Keyless Entry System via Prewired 3-pin door lock plug.

DS-2.4

2-Wire Door Lock Actuator

Economy gun-style actuator converts manual doorlocks into power doorlocks for use with vehicle security systems. Two-wire reverse polarity operation; universal mounting hardware included.

DS-KIT-4.4

2 or 4 Door Power Door Lock System

Economy gun-style 4-door actuator kit with control module and full harness. Activates from negative input wires. Includes two 5-wire actuators that provide "follow me" lock unlock operation - manually lock/unlock one, the other 3 doors will follow. Includes Prewired harness with connector to plug directly into any Omega alarm or remote start system. Includes all mounting hardware (back strap, actuator rods, rod connecting brackets).

PINSWITCHES&CONTACTS

AU-NCT

Normally Closed Door Trigger Adapter

This module converts up to 5 normally closed trigger circuits to standard negative trigger outputs. Ideal for many Ford vehicles or for tethering trailers, tools and other equipment to combat theft.

AU-5400

5-Pack Of 3 Amp Diodes

No install bay is complete without some diodes on hand for anything from door trigger isolation, ignition input isolation, splitting output signals, you name it!

AU-47

Adjustable Pin Switch

11/16" Black plastic shaft with adjustable metal housing. Fits 5/16" hole. (sold in bags of 5)

AU-46

Mercury Tilt Switch

Commonly used to detect the opening of vehicle hoods or trunks. Waterproof; adjustable tilt angle. (sold in bags of 5)

WIRE HARNESS

H-RS6BLC

Low Current Remote Start Ignition Harness

Low current harness for connecting to small gauge OEM wires. Compatible with 10 - 70 series Excalibur remote start units. +12 volt supply wires fused at 10A each & all wires are 100% copper at 18 awg for max current capacity & cooler operation.

Ask about our FREE high current harness exchange program!

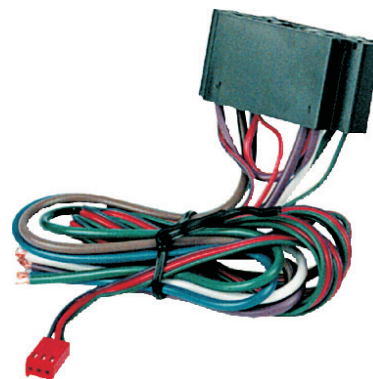

RS-OUTPUT

Remote Start Expansion Harness

This is a universal harness for configuring your own extra ignition circuits or for interfacing to a variety of remote starting accessories. Based on the remote start settings, it provides a status/GWR output, negative ignition output, a negative starter output, and a constant 12 volt output for driving relay coils. The harness is 12" in length and plugs directly into all Omega remote car starters.

RELAYS & SOCKETS

**20/30
AMP!**

AU-7-Mini Relay

Prewired 20/30A Mini SPDT Relay

Mini relay with vacuum sealed construction for superior performance and longer life than standard relays. Prewired with 50cm long wires. Contacts have 18 AWG wires and coil triggers have 24 AWG wires. Ideal for extra ignitions, Ford parking lights, Kia/Hyundai style parking lights, extra ignitions, door locks, etc..

DLS

Doorlock Relay Socket

Prewired dual relay socket allows easy installation of optional relays to both the Omega security or keyless entry system, and the vehicle. Can be configured to operate 3-wire negative, 3-wire positive, and 5-wire reversal power doorlocking systems for lock and unlock by the Omega system. Two SPDT relays are required. **Heavy duty 14 gauge connection wire.**

• Connects to Security or Keyless Entry System via Prewired 3-pin door lock plug.

**30/40
AMP!**

AU-7 Relay

30/40A SPDT Relay

General Purpose 30/40amp Single Pole Double Throw Relay.

AU-SOCKET

Prewired Starter Interrupt Socket

Prewired 3-wire relay socket for starter interrupt with 12" wires. (sold in bags of 5)

AU-SOCKET-5

Prewired SPDT Socket

Universal Prewired 5-wire relay socket with 12" wires. (sold in bags of 5)

ANTENNAS & CABLES

REC-2N

2-way Antenna Kit

- Compatible with Excalibur 10-60 series & ECHO-2,3,4,5
- Includes harness
- Double stick tape included

REC-1N

1-way Antenna Kit

- Compatible with Excalibur 10-60 series.
- Includes harness
- Double stick tape and velcro pad included

REC-2N9L-3D-KIT

2-way LoRa Antenna Kit

- Compatible with Excalibur 70 series only "HR" remotes
- 3D accelerometer onboard for manual transmissions
- Built-in LED & valet button
- Includes harness
- Double stick tape included

REC-2N9L-3D-KIT

2-way SST Antenna Kit

- Compatible with Excalibur 70 series only "SST" remotes
- 3D accelerometer onboard for manual transmissions
- Built-in LED & valet button
- Includes harness
- Double stick tape included

REC-2N4-3D-KIT

2-way 433 Antenna Kit

- Compatible with Excalibur 70 series only "433" remotes
- 3D accelerometer onboard for manual transmissions
- Built-in LED & valet button
- Includes harness
- Double stick tape included

REC-1N4-KIT

1-way 433 Antenna Kit

- Compatible with Excalibur 70 series only "433" remotes
- 3D accelerometer onboard for manual transmissions
- Built-in LED & valet button
- Includes harness
- Double stick tape included

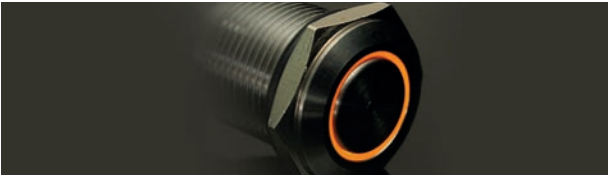

STATUS LIGHTS

AU-LED-BLU

Bright Blue Security LED

Super bright blue LED with Red micro plug connector for newer Omega vehicle security systems. Fits 9/32" hole or combination holder, 5 volt operation. (sold in bags of 5)

PUSH BUTTON & TOGGLE SWITCHES

22LC

Surface Mount Valet Switch

Momentary push button with an adhesive foam backing for mounting to just about any flat surface. (sold in bags of 5)

24L

Push Button Valet Switch

Momentary push button switch that mounts through a 1/4" hole. Compatible with all Omega systems. (sold in bags of 5)

22GT

Toggle Style Valet Switch

Latching toggle switch that mounts through a 1/4" hole. (sold in bags of 5)

STATUS LIGHT/VALET COMBOS

AU-VLA-KIT

LED, Valet Switch, & Holder Assembly

Assembly includes an AU-LED-SP status light and 22LC valet switch mounted in a convenient holder. (sold in bags of 5)

AU-LED-PB

Push-button LED/Valet Switch Combo

Compatible with any Omega system equipped with separate LED and valet button ports. Fits 5/16" or 8mm hole & features a bright blue LED for maximum theft deterrence.

AU-LED-PB2

Push-button LED/Valet Switch Combo

Compatible with any Excalibu 70 series remote start system. Fits 5/16" or 8mm hole and features a bright blue LED for maximum theft deterrence.

AU-LED-PB / AU-LED-PB2

Push-button LED/Valet Switch Combos

Included with key Excalibur systems!

OEM REPLACEMENT REMOTES

REPLACE FACTORY REMOTES FOR MUCH LESS THAN OEM

OEM-UR-CR-01

Replacement Car Remote

Replaces 228 remotes.
Compatible with 65 million
vehicles from 1997-2015

Omegarules.com/OEMURG

OEM-UF-CR-C

Replacement Car Remote "Classic"

Replaces 168 remotes.
Compatible with 6 million
vehicles from 1990-2003

Omegarules.com/OEMUFG

BATTERIES & ACCESSORIES

BAT-CR-2450

Replacement Transmitter Battery

Standard profile, 3 volt, lithium
transmitter replacement battery for
Omega transmitters. 1 required per
transmitter. (sold in bags of 5)

BAT-CR-2032

Replacement Transmitter Battery

Standard profile, 3 volt, lithium
transmitter replacement battery for
Omega transmitters. 1 required per
transmitter. (sold in bags of 5)

BAT-CR-2025

Replacement Transmitter Battery

Standard profile, 3 volt, lithium
transmitter replacement battery for
Omega transmitters. 1 required per
transmitter. (sold in bags of 5)

BAT-CR-2016

Replacement Transmitter Battery

Thin profile, 3 volt, lithium transmitter
replacement battery for Omega
transmitters. 1 required per
transmitter. (sold in bags of 5)

BAT-27A

Replacement Transmitter Battery

12 volt replacement battery for Omega
transmitters. (sold in bags of 5)

BAT-23A

Replacement Transmitter Battery

12 volt replacement battery for Omega
transmitters. (sold in bags of 5)

TRANSMITTER BATTERY LOOKUP

Use these charts to determine which type of battery is required for each model of Omega transmitters.
All available replacement transmitters are covered in this guide.

DIY TIRE PRESSURE MONITORING SYSTEM

SM-TP-71P

Tire Pressure Monitoring For Passenger Vehicles

- Quick DIY install
- Great over-the-counter accessory item
- Designed for passenger vehicles with ~32psi running pressure
- Sensor pressure range: 25-47psi
- Normal operating pressure: 30-35psi
- Includes black & silver sensor covers
- Display plugs into cigarette lighter (constant or switched)
- Auto detects alternator voltage increase to turn on
- Sensor batteries last up to 2 years
- Fast/slow leakage alarm
- High temperature alarm
- High pressure alarm @ 47psi, low pressure alarm @ 25psi
- Attractive retail packaging with built-in wall hanger

SM-TP-SEN1

Replacement Sensor For SM-TP-71P

- Includes black & silver sensor cover
- Attractive clamshell packaging for easy wall display

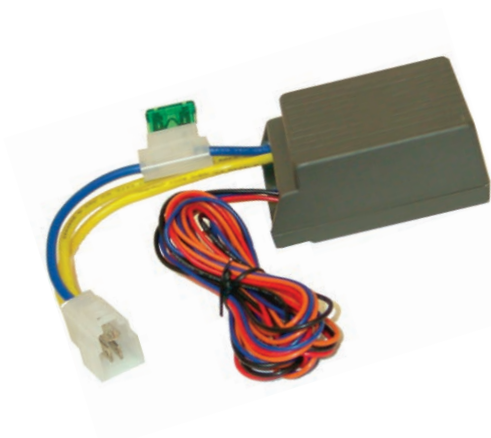

English/Español Manual

**Silver Sensor
Covers Included!**

TURBO TIMER

TURBO TIMER24

12v or 24v Turbo Timer

The **TURBO TIMER24** is almost a requirement for any turbo equipped vehicle. It will dramatically increase the life span of your turbo by allowing engine oil to properly cool the turbo down after driving. It includes a shut off button and has two ignition outputs.

- ½, 1, 2, 3, 4, 5, 6, & 7 minute run times
- Push button shut off switch
- 2 ignition outputs with easy connect 3-pin harness
- 12v - 24v operation

STROBE KIT

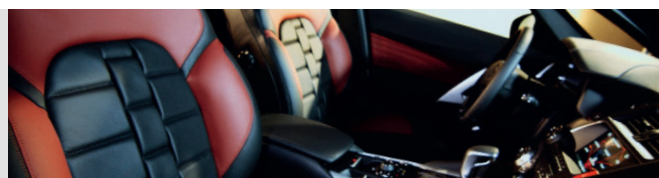

STR-F09

LED Strobe Light Kits

- STR-F09 Includes 2 bulbs -- white LEDs
- STR-F09-AMBER Includes 2 bulbs -- amber LEDs
- Bulbs can be inserted into headlight housing or surface mounted on any vehicle panel
- Low or high power selectable
- Operates on 12v power supply
- 9 flash patterns with 1 kit, 19 flash patterns with 2 kits
- Includes flange kit for surface mounting
- Includes compact, low heat controller
- Includes extension cable
- Wire multiple kits in parallel to synchronize
- Can use existing analog strobe wiring for upgrading
- "On" mode for fog light function

SEAT HEATER

HSK-150

Seat Heater Kit

- Carbon fiber elements
- Pads can be trimmed for custom fit
- Works with cloth or leather seats
- Dual temperature control (High/Low)
- Illuminated dual color LED switch
- Comes with back and bottom elements

BRANDED SHIRTS

Omega now offers new t-shirt designs for most of our product lines. They are made with 100% pre-shrunk cotton t-shirts with silk screen printing. *Also, check out our new soccer jersey!*

PANEL POPPERS

Small, easy to use tool.

INDOOR/OUTDOOR BANNERS

Omega offers our dealers a variety of signage for the sales floor as well as indoor/outdoor banners for maximum exposure to potential customers.

- Our **Indoor/Outdoor banners PVC** provide product awareness and are suitable for the install bay, sales floor, or out front for road-side advertising

AUTHORIZED DEALER WINDOW DECAL

Adhesive decal that measures 8" x 6". It installs on the outside of windows and gives your customers confidence that you are backed by Omega R & D as a manufacturer and partner.

PRODUCT LITERATURES

Point-of-Purchase brochures are available for all of Omega's product lines FREE OF CHARGE to Omega dealers. Each brochure comes prepacked with 100 brochure cards loaded in a cardboard display holder. Be sure to offer these great tools so you can educate your customers and easily explain to them why they should only trust an Omega dealer to protect their vehicle. Contact Omega or your sales representative about getting some of these great sales tools. Other sales aids and materials like vinyl die cut window decals are also available.

Virtual Salesman Benefits

How'd you like a full time salesman who knows Omega's product line better than anyone? This guy brings 40 years of collective knowledge to your showroom. He's ready to take vehicle security & remote start sales to the next level.

- He qualifies your customers for you.
- He never forgets to upsell features.
- He never forgets to offer system upgrades & accessories.
- You tell him what to sell and how.
- He doesn't even take lunch breaks!

CONTACT US to learn more about how Virtual Salesman can increase your dollars-per-sale and improve your close ratio.

YOU'VE TRUSTED US FOR 40 YEARS, IT'S ABOUT TIME WE JOINED YOU ON THE SALES FLOOR.

Introducing Virtual Salesman! The industry's first fully customizable, vehicle security, remote start system designer. Virtual Salesman helps you engage your customers in a rich and powerful way by supplying them with simple questions and guiding them to a system that best meets their needs. This is just the beginning! Once your customers tells Virtual Salesman about their vehicle, it'll let them know if an interface module is needed, offer them full explanation of features and functions. Once they select a system they like, Virtual Salesman will offer them all available feature upgrades, and any compatible accessories that benefit them in ways they don't even know are possible! Once your customer selects their dream system, Virtual Salesman will create a bill sheet that breaks down the entire system with pricing. Virtual Salesman will then e-mail the bill sheet to the customer and copy you with the customer's contact information. This way, you're capturing leads even if they are using Virtual Salesman on their own!

DEALER SUPPORT

www.wiresheet.com

WireSheet has been graced with a complete overhaul. EVERYTHING is redesigned with speed, clarity, & efficiency in mind. We tapped key customers & veteran installers to hone in on key features needed to combat daily frustrations.

Things like:

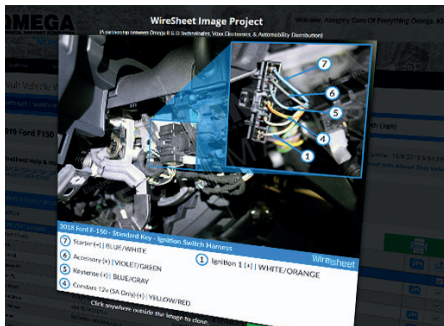

- Vehicle selection has a built-in year / VIN decoder.
- Wires are organized by category & most commonly used
- Custom Printouts let you control what info you take under the dash.
- Introducing a new image library of thousands of wire locations.
- Info is offered on separate tabs for primary install categories & quick document access.
- The entire site is PC & Mobile device friendly.

Now compatible with smartphone web browsers! Just visit wiresheet.com on your phone and install the web-app!

WireSheet Image Project

We've partnered with the tech teams (our good homies at Voxx Electronics and Automobility Distribution) to build a vehicle image library like never before.

All Images include wire color, polarity, pin location (where applicable), and location in the vehicle! All new vehicles will include images shortly after being added to our database.

- New images are being loaded daily with thousands already loaded
- All images Includes color, polarity, & pin location of each wire
- Shows location in vehicle w/ close up of each wire
- On-demand print for each image keeps you from unnecessary repeated prints, wasted ink/toner, & wasted paper
- They're also mobile friendly for all you savvy tablet users.

Comprehensive OmegaLink Interface & Excalibur T-Harness Lookup Guide

Now we're getting to the good stuff. We've built a nice all-in-one interactive lookup guide that's now serving up all our 'Analog Starter' T-Harnesses right along side our OmegaLink interface modules.

We've also updated the layout to show you all available solutions instead of limiting to just a few.

- See Excalibur compatible T-harnesses with matching module and firmware
- Hyperlinks to t-harness & module install guides
- See all available solutions for the vehicle (not just 4 at a time)
- See all recommended accessories.

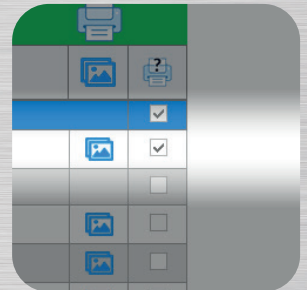

**USE WIRESHEET.COM
FROM ANY SMARTPHONE!**

SIGN UP TODAY!

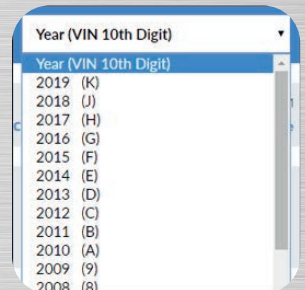

ELIMINATE THE NEEDLE AND THE HAY STACK!

NEW custom printouts allow you to disable individual wires or entire sections before printing.

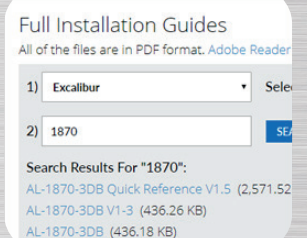

ELIMINATE THE NEEDLE AND THE HAY STACK!

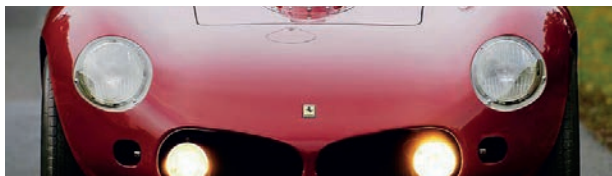

WireSheet's year selector tells you right away what the VIN's 10th digit should be. Misidentified vehicle years cost more install time than you realize. Manufacturing dates are unreliable and vehicle owners get the year wrong a lot.

NEW RTFM INTERFACE!

New document interface allows you to search within any product category. Search operation guides, quick install guides, full install guides, tech notes, & training docs! You can view all or perform a quick text search. Read The Full Manual faster and easier than ever before!

RETAIL DISPLAYS

ENTIRELY CUSTOMIZABLE!

You can tell Virtual Salesman which products you carry, enter your own pricing, set labor rates, choose which features are included, or are available as paid upgrades. You have to power to create a sophisticated sales tool with custom vehicle profiles! This allows you to adjust labor rates, even change your preferred interface module!

VIRTUAL SALESMAN CAN BE ACCESSED ON...

**PERSONAL
COMPUTER**

**TABLET AND BRING VIRTUAL
SALESMAN ANYWHERE ON
THE SALES FLOOR**

**BUILD YOUR OWN
CUSTOM DISPLAY**

VS-15

Interactive Display

- Built-in 15.6" touchscreen LCD with Wifi!
- Serves up YOUR Virtual Salesman with your store name.
- Powder coated light weight aluminum housing.
- Features a mounting panel & retractable tethers for remotes.
- Includes a non-functioning smartphone to promote smartphone control upgrades.
- Place on any counter top or wall mount (floor stand coming soon).

WALL MOUNT OR COUNTERTOP

BUILT-IN WiFi

TOUCHSCREEN

SSC-1 SECURITY SALES CENTER

Omega's state-of-the-art alarm wall mount display. It has an integrated brochure holder, molded Omega logo, and detailed functional display to easily illustrate the benefits of Omega's product line to your customers.

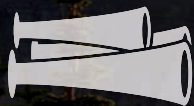

- Alarm mounts to backlit frosted acrylic panel. When powered, the display glows blue.
- The entire display flashes red with the system's light flash output.
- Built in tach generator for remote start demonstration and a speaker that plays the sound of an engine starting!
- Horn and siren audible outputs
- Hood and door trigger inputs
- Ignition switch
- LED indicators for Lock, Unlock 1, Unlock 2, Aux. Out, Light Flash, Starter Interrupt, Domelight Flash, and Trunk Release
