

**LEGENDARY
VEHICLE SECURITY**

INTRODUCING THE AU-NCT!

Normally Closed Trigger Sensor

The AU-NCT greatly simplifies installations on vehicles with normally closed door, trunk, and hood circuits. It can also be used for asset protection by triggering when circuit is broken.

FEATURES

- SWEET!** ✦ Greatly simplifies door trigger connections in **Ford, Lincoln, & Mercury** vehicles.
- ✦ 5 normally closed trigger inputs
(ground = not triggered, nothing = triggered)
- ✦ 1 negative trigger output
- ✦ Loop the trigger input wire through assets like toolboxes. When the wire is broken, the alarm will trigger.
- SWEET!** ✦ Connect to trailer wiring and **detect trailer disconnect**.
- SWEET!** ✦ Minature housing for easy installation
(55mm x 35mm x13mm)
